ABOUT

A design professional blending creativity with strategic thinking, I bring 7.5+ years of experience in user experience and product design across web and mobile platforms. My expertise spans research, wire-framing, prototyping, and user testing, ensuring each product is both functional and delightful.

Throughout my career, I've led end-to-end design on numerous projects, taking them from concept to launch with a focus on user-centred solutions.

What excites me most is seeing real users engage with my designs and using that feedback to drive continuous improvement.

		CGPA - 7.6	

INTRESTS

Sketching	Cricket	PC Games	Movies & series
Decorating spaces	Travelling	Music	

EXPERIENCE

APR 2021 - Present

Senior Product Designer

[Experience.com](#)

- Led the end-to-end design and launch of the B2C platform, Experience.com, scaling the user base to 15 million with 50,000 new monthly sign-ups. Strategically integrated gamification to boost user engagement, driving a 30% revenue increase and a 22% conversion rate to pro users while aligning design with new business goals.
- Redesigned and launched the B2B Experience Management Platform, elevating key products including Listing, Web Analytics, Referrals, Survey Taker, Review Widget, and Social Connection. Leveraged user feedback and Mouseflow data to significantly improve task completion and overall user experience, receiving positive client feedback on the new design.
- Led the full design lifecycle from concept to launch, crafting user-focused solutions for both web and mobile that directly supported business goals and boosted revenue.
- Collaborated closely with Product Management, Engineering, SEO specialists, and Chief Officers to design impactful, metrics-driven solutions and drive measurable results.

JAN 2019 - APR 2021

UI/UX Designer

[CES IT Service Ltd](#)

- Conceptualized and designed responsive web applications, dashboards, and mobile apps across diverse domains including healthcare, eCommerce, education, and oil & gas.
- Conducted user research, including user interviews, and created information architecture, user flows, storyboards, and site maps to communicate design concepts. Managed the end-to-end design process to deliver high-quality solutions on time.

MAY 2018 - DEC 2018

Graphic Designer

[ReDIM Information System](#)

- Created responsive UI designs for Online Casino Games, including Live Andar Bahar, Roulette, Dragon Tiger, Baccarat, and more.
- Developed a new brand identity for Super Spade Games, including print and web collateral, graphical standards for marketing, and various promotional materials. Designed monthly newsletters, brochures, booklets, and outdoor advertising campaigns.
